GUIDELINES

The submission must be complete. A submission without the filing fee or with missing or vague Forms or Attachments will not be considered complete, will not start the process before the Board, and will not begin the statutory time periods for Board consideration. The Clerk of the Board can help you to determine whether your submission is complete. Complete submissions will be docketed at the Town Clerk's office.

Complete, final plans will expedite the process. Submitting vague or incomplete plans or late changes to plans may delay the process before the Board. The Board's decisions condition the issuance of building permits on the submission of complete, final plans so that the Zoning Enforcement Officer can determine whether the actual construction conforms to the plans on which the Board's decision is based and to the requirements of the Zoning Bylaw.

Understand the rules. Your submission and the process before the Board will proceed more smoothly if you understand and follow the Rules and Regulations of the Board. Copies are available from the Clerk of the Board.

Do not contact board members. Board rules discourage any personal appeals or comments to members of the Board; all communications outside a convened meeting of the Board concerning a proposed or pending submission shall be submitted through the Clerk of the Board.

Communicate with neighbors. Notice of each hearing of the Board generally is given to all abutters and abutters to abutters within 300 feet of the property involved in a submission. Because these neighbors will have a chance to speak at the hearing, you may wish to communicate with them and answer their questions before the hearing.
